## Both Men, Women, National Libras, Officers

### Appointment of Fair Sex to Radio, Tariff Posts Urged

**R. A. Macdougall of Woodstock Succeeds J. P. Madden of Ottawa—Miss Odette Lapointe Renamed—Eric Stewart, Edmonton, Legal Adviser**

OTTAWA, June 3.—The president of the men's branch of the Twentieth Century Liberal Association is R. A. Macdougall, of Woodstock, Ont. He succeeds J. P. Madden, of Ottawa.

The presidency of the women's branch is retained by Miss Odette Lapointe, of Quebec, who has occupied that position since the inception of the association in 1930.

## BOY LOSES LIFE IN SASK. RIVER

Topping out of a boat into the river east of the Fort Saskatchewan bridge, Robert Arl, 4, of Fort Saskatchewan, lost his life early Friday afternoon. Doctors from Fort Saskatchewan worked over him for an hour and men from the Edmonton fire department made futile attempts by artificial respiration to revive the young boy, who was working over him for more than two hours.

All efforts to save the young life failed and an oxygen apparatus was applied as a last resort, although there were no eye-witnesses as to the tragedy. Doctors from the city of Fort Saskatchewan, who responded to the call, reported that the child had apparently been playing in an old boat tied to the river bank. It is thought he fell out and was killed. The body was recovered from the water near the boat was over his head. The body floated to the river bank and was pulled from the water.

Archie Arl, father of the deceased and brother of Constable Arl of the city police force, is a painter at Fort Saskatchewan. Funeral arrangements will be made here.

## COAST LUMBER FIRMS ACTIVE

NEW WESTMINSTER, B.C., June 3.—Coincident with an advance in log and lumber prices, increased activity has been noted in the lumber industry on the Fraser river and a greater volume of production is indicated. Several large firms have announced operating expansion.

The Callaghan Lumber Mills, Ladu Island, closed for a year, will re-open next week, according to company officials, and will employ about 40 men. The large shingle mill at Fraser Mills, operated by the Canadian Western Lumber Co., has started a night shift this week. Heavier movement of cottonwood logs is also reported.

## Prairie Weather

**WARM** Local Forecast  
**FAIR** Fairly warm, with light winds. Highest temperature 65, lowest 45. Official rain 0.10 inch. Rainfall for June 1, 1933, 0.10 inch. Total for season, 0.10 inch. June 2, 1933, 0.10 inch. Total for season, 0.20 inch. June 3, 1933, 0.10 inch. Total for season, 0.30 inch.

# CANADIAN KNIGHTS HONORED

## Are Made Public: 4 New Peerages

Continued from Page One

The other peers are Sir Hon. George Lane Fox, former parliamentary secretary to the prime minister and chairman of the royal commission on the constitution; Sir Edward Hille, joint proprietor of the Daily Telegraph and Sir Samuel Palmer, a vice-president of the Royal College of Physicians; Sir Samuel, through the music patronage and the creation of music scholarships, has done much to encourage British students and composers.

### KNIGHT OF THISTLE

The king's third son, the Duke of Gloucester, is appointed a knight of the Thistle. The Earl of Kinnaird is similarly honored.

Lord Lytton, who presided over the League of Nations commission which investigated the Manchurian situation, is rewarded with the knighthood of the Garter and Sir Dennis Hebray, deputy speaker of the House of Commons, is made a privy councillor.

The two baronets are Sir Martin Melvin, chairman and governing director of Associated Collieries Limited, and Sir George Penny, parliamentarian and proprietor of the king's household.

Work on behalf of medical science is recognized in the knighthoods conferred on W. S. Dale, F.R.S., famous ophthalmic surgeon of St. George's Hospital, London, and Dr. R. H. P. Crawford, consulting physician of King's College Hospital.

### EDUCATION RECOGNIZED

Education is recognized in the knighthood for Henry Stuart-Jones, principal of University College of Wales, Aberystwyth, and literature in the knighthood made a companion of the king's household, Sir Squire, editor of the London Mercury.

Miss Annie Horniman's efforts on behalf of the drama are acknowledged by her appointment as a companion of Honor. Miss Horniman founded the Abbey Theatre, Manchester, and the Repertory Theatre, Manchester.

Lady Simon, wife of Sir John Simon, the foreign secretary, is created a Dame Commander of the Order of the British Empire in recognition of her anti-slavery work and Lady Helen Macdonald, made a Commander of the Order of the British Empire, for her work among deaf-mute children in Scotland.

### EFFECTIVE WORK

Less spectacular, but no less effective, work of a Somerset letter carrier is rewarded with the British Empire medal. P. C. Webber of Taunton is the recipient of the honor. During a great snowstorm when all roads were blocked, Webber tramped for 19 hours a distance of more than 27 miles delivering mail. He then made his collections on the way back.

The medal was also awarded to two London police officers for rescue at a fire at Chislehurst. Sir Herbert Creedy, permanent under-secretary for war, and Colonel Sir Clive Wigam, the king's private secretary, are appointed Knights Grand Cross of the Order of the Bath.

Baroness Denman, chairman of the National Federation of Women's Institutes, is made a Dame Commander of the British Empire. George Francis Hill, principal librarian of the British Museum, is made a Knight Commander of the Order of the Bath.

### KNIGHTS COMMANDER

Sir Alexander Slater, governor-in-chief of Jamaica, and Lieutenant-General Sir Arthur Wauchope, commander-in-chief of Palestine, are appointed Knights Grand Cross of St. Michael and St. George.

The following have been appointed Knights Commander of St. Michael and St. George: Sir Thomas R. Bayne, former premier of New South Wales; William Green, assistant treasurer of Australia; Captain Hon. B. E. H. Clifford, governor of the Bahamas; Sir John Campbell, financial adviser to the Colonial Office; Sir James Currie, chairman of the governing body of the Imperial College of Tropical Agriculture, Trinidad; Joseph Addison, British minister at Prague; Zdenko Slovinsky, Reginald H. Moore, British minister of Tcheran, Persia, and G. A. Mouney, assistant under-secretary of the foreign office.

Major Herbert W. Peebles, administrator of St. Vincent, Windward Islands, is made a companion of St. Michael and St. George.

### Radical Pension Changes Urged

LONDON, Ont. June 3.—Radical changes in the present law so that need instead of disability will be the basis for pensions was forecast here Friday by Major F. Fortescue McKay, Winnipeg, member of the Penions Tribunal sitting in that city.

Addressing the Kiwanis Club, he said the country as a whole is "suffering from a lack of pension payments is becoming too great a burden."

He declared men earning \$100 a year were receiving pensions while other veterans who were "down and out" were receiving none.

# KING'S BIRTHDAY

## PREPARE FOR WORLD BANKING

### PROBLEMS IS ONE OF CHIEF AIMS SOUGHT IN LONDON

This is the last of a series of five articles, in which *Edmonton Bulletin* and *Central Press* Canadian survey the problems to be considered by the world economic conference, opening in London on June 12. Today's article deals with capital movements and plans which have been suggested for a new international credit institution.

By H. K. REYNOLDS (Copyright by Edmonton Bulletin and Central Press)

LONDON, June 3.—The re-establishment of international financial institutions is one of the highly technical problems to be considered by the London conference, in handling of capital movements between nations.

To restore capital movements on a normal scale, the conference will consider the establishment of a special credit institution, such as a monetary normalization fund, or a fund from banks of issue, or from private sources.

Supported by the governments concerned, a banking institution of this kind would get capital moving by granting new credits, it was argued.

Before the way can be cleared, however, for the operation of a new credit organization, the conference will have to consider the abolition of foreign exchange restrictions, by which many countries, confronted by adverse balance of accounts, adopted artificial means to balance imports and exports of foreign currency.

Economies have found that such effect of improving balances, since experts from each country were up against similar barriers erected in other countries.

Existing imbalances, of course, remains a prime factor in dealing with capital movements, and it has been set out in the draft agenda of the conference that arrangements relating to foreign debts would have to be made between the parties concerned, when it became evident that balance of payments could not be restored owing to the threat of mass withdrawals of short-term deposits or the heavy charges resulting from the service of long-term debts.

operation from the Mount Pleasant.

On Saturday morning June 3, the two girls were released on bail.

On Saturday night will be closed for the King's birthday, according to the forecast for the province for today and Sunday, according to C.N.R. weather report, a fair and moderately warm.

North Bay Vies With Edmonton For Heavy Baby

NORTH BAY, Ont. June 3.—The "heavy baby" born at Edmonton yesterday weighing 15½ pounds, has a close runner-up in Master L. Carlo of this city.

Press despatches from Edmonton announcing the John baby's arrival generally brought forth the fact that on May 11 the child struggled up to the home of Mr. and Mrs. J. B. Lacroix and left 15 pounds of baby boy.

C.N.R. Revenues

MONTREAL, June 3.—Gross revenues of the Canadian National Railway system for the 15-day period ending May 31, were \$4,900,000, as compared with \$4,810,427 for the corresponding period in 1932, an increase of \$25,573.

Public Debt U.S.

WASHINGTON, June 3.—The public debt of the United States increased during May to \$23,833,383,487 compared with \$23,413,000,000 at the end of April and \$20,930,916,690 on May 1 of a year ago.

### Friday Hottest Day To Date As Mercury Hits 78

The sun beamed down on the city Friday, sending the mercury up the scale to register the season's hottest day. At 3:30 p.m. yesterday, the time of the sun's zenith, the thermometer stood at 78 in the shade and at 138 in the sun.

This morning's official low was 60 degrees, at 2:00 a.m., climbing to 68 at 8:00 a.m. The morning breeze was from the west.

General forecast for the province for today and Sunday, according to C.N.R. weather report, a fair and moderately warm.

Northwest sections report moderate temperatures with no rain.

### No Fishing Trips

PRINCEALBERT, Ont. June 3.—Harry W. Peterson asked for a divorce in circuit court on the grounds his wife, sold to him 20 years ago, wouldn't let him go fishing. His wife, he said, wouldn't guard the front door and his mother-in-law the back door.

### Cardinal Improves

LONDON, June 3.—Cardinal Patrick, Archbishop of Westminster, spent a restful night following serious attack of pulmonary oedema yesterday. An improvement in his general condition was noted.

Prince held the first one-going senior club round in link. The American-made Montreal won the second such ship.

# 60 per cent. Seeding one CHEERY HALLS SPELL HOSPITALITY

## ALBERTA CROP IS WELL AWAY SAYS REPORT

Moisture Conditions Are Normal—Decrease Average Shown

WINNIPEG, June 3.—Wheat seeding is practically completed in western Canada and coarse grain 60 per cent in Alberta and Saskatchewan and 84 per cent in Manitoba, according to the semi-monthly crop report of the Seale Grain Company, Limited, issued here last night.

Moisture conditions are reported as normal to better than normal as compared with a 10-year average. Decrease in wheat acreage compared with last year is placed at seven per cent in all provinces, the largest decrease occurring in Saskatchewan.

On the average 75 per cent of the wheat is above ground and while cut worm and grasshopper infestation is reported as slight at a number of stations it does not appear as a serious menace.

Percentage of total acreage that will be sown to wheat now seeded is placed at 85 per cent in Alberta and Saskatchewan and 100 per cent in Manitoba. Coarse grain seeding completed is estimated at 58 per cent in Alberta, 60 per cent in Saskatchewan and 84 per cent in Manitoba.

"Taking the 10-year average at 100 per cent, moisture condition in Alberta is 104 per cent, in Saskatchewan 98 per cent, and in Manitoba 107 per cent.

In Manitoba 55 per cent of seeded wheat is above ground, compared with 75 per cent in Saskatchewan and 60 per cent in Alberta.

## PRINCE ALBERT FARMER DROWNS

PRINCE ALBERT, Sask., June 3.—The body of Peter Hrynchuk, thought to have been drowned in the river here Thursday, has not been recovered, although search was instituted immediately after his disappearance and has been continued since.

Word of what is believed to be another drowning accident came from Cloverdale, near the Henribourg district, where it is thought that Laurence Lemola, 50-year-old farmer, of Cloverdale, was drowned in the Red river on Tuesday.

**CAR LOADING DECREASE**  
OTTAWA, June 3.—Further decrease were reported today by the Dominion Bureau of Statistics for car loadings on Canadian railways. For the week ending May 27, last, the total was 22,841, a decrease of 3,274 from the previous week and 7,480 from the corresponding seven-day period last year.

## In "Maiden Cruise"

Yes, beauty helps. . . Three of the 40 girls selected from 1,000 to appear in "Maiden Cruise," a new musical comedy picture. . . Left to right, Gwen Seager, Kay Gordon and Alice Dahl.

## FREE STATE TO MAKE MUNITIONS

By JOSEPH BENNINGAN  
DUBLIN, Irish Free State, June 3.—With the benediction of the Irish League of Nations society, which wants manufacture of munitions to be taken out of the hands of private enterprise, the Irish Free State is to have a new munitions factory.

Dependence on Britain for war materials worries President Eamon De Valera's republican government and the present has not hesitated to confess the fact openly.

On instructions of Frank Aiken, minister of defence, army authorities made diligent inquiries in European countries about machinery and equipment necessary for manufacture of munitions and explosives. They also sought loan of skilled labor under which Irish munitions workers would be trained.

The government decided the best site for the new factory would be in the centre of the country rather than near the coast where it would be more vulnerable in event of attack by an outside power.

## Groom Vanishes To Get License Fee

PITTSBURGH, June 3.—There she sat, in the marriage license bureau, impatiently tapping her foot. Then she walked over to Clerk Edgar Howe and told him the man she was to marry went out to get another dog. (A license cost \$2.)

"I won't marry a man who hasn't enough money to pay for a license," she told Howe decisively. "When he comes back, tell him I've changed my mind." Out she went.

## Sun Life Denies Morgan Loan

MONTREAL, June 3.—No loan, personal or otherwise, have been received by him from the banking house of J. P. Morgan & Company, said Joseph Alexander Ewing, managing director of the Sun Life Assurance Company of Canada.

Mr. Ewing's statement was made in connection with the appearance of a name similar to his on a list of persons to whom personal loans were made by the Morgan organization. The list was made public during the recent investigation of the Sun Life's assets.

work or in carrying on the functions of this or that organization. Both the men and women seem to be doing their other duties. Those born on this date seem to have more than the usual difficulty in working out their material problems, but there are few divorcees among them.

Born on June 3, you are no doubt a very dignified person; you are conventional, and you rely upon good judgment. The women born on this date are often social leaders; certain it is, that they are active either in church or in their families and friends without neglecting their other duties. Those born on this date seem to have more than the usual difficulty in working out their material problems, but there are few divorcees among them.

## Brighten Them Up So to Greet Your Guests

Smiling halls are the best first greeting you can possibly give a guest. Your front hall should give a clue of what is to be expected not only from the rest of the house but from the hostess. If your halls are wrong, a formal little hall with an informal family and home or vice versa.

Dark halls are an abomination. If there is no door and very often this is the case, see that some type of unobtrusive lighting makes it possible to see.

Plain walls and dark floors do a lot to increase the sense of space in a hall. Finely figured paper is better than big striped papers in black and white, or silver and white, are lovely in some halls.

One effective hall that was long, but narrow, managed to create the impression of more width by using scenic paper that had a vista that carried the eye far away.

**MIRROR A NECESSITY**  
For a hall that has a stairway going up from it, one unusual home has two doors, little etched views of Paris, all mounted in silver frames and hung light together on the space along the banister.

Certain pieces of furniture must be needed in every hall. A mirror certainly, for every woman wants one last look at herself before meeting the rest of the party. A small table with a few useful things, a place to place hats, cane and so forth.

You'll need a chair or two, preferably comfortable ones if you have a lot of people. A tall and grand place to put unusual little objects, a chair or two, a table and chair that you have inherited and that are really beautiful.

The colors in which you do your hall must have some relation to the rest of your home. Yellow halls are warmer than any other. Green is cool for summer but unless you are careful they may seem unobtainable.

Floors may be covered with blocked linoleum and some scatter rugs. Or waxed dark hardwood with runners in figured carpet, are runners on the stairs, avoid dark carpet. They are dangerous. You can ascend and descend light stairs with much less nerve strain, remember that.

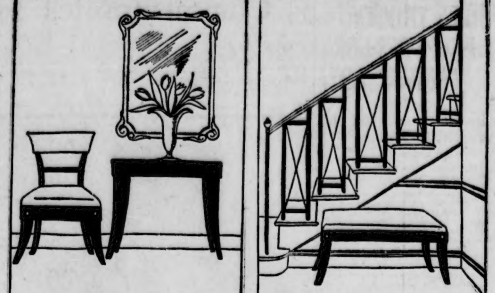

**WALL COLORS IMPORTANT**  
A gloomy hall will take on a new lease of light if all the woodwork is painted in yellow and ivory.

**MORE ABOUT AROUND YETOWNE**  
CONTINUED FROM PAGE FOUR

Shoemist at the Macdonald shoe store, and George Bernstein, and then to call on Sir Oscar North, a fish expert, Sir Edith, the myologist, the Laird Rabb, Sir Bill Edw., the sports reviewer, and so on. It is he who I arrive home but fortunately enough find my name being entertained by a bridge club, so that she must smile sweetly, albeit I don't think of a storm when these bedlams have departed. So to leaving before this, and to the bridge, playing contracts until I deem it advisable to return home, like white I do, finding here asleep, so that there no has been the slightest, albeit a fine dinner, he spoiled and no doubt I will hear more of it, she having an inconvenient memory on these things. So cogitating to bed.

Friday, June 2  
Up verie belmes and with Sir Elmyr Stubbins to the club by petrole chaise. And all day at my stant, and earlier enough, home, to find that the Mistress Geraldine do be using my two tennis rackete an nowhows for a perilous trip over the lawn. And I fain to larrup the young jacksnaps, but dare not, my jowelle dove shaking a broom-stick at me, shouting "Don't you dare lay a hand on this little angel, you big brute," but Lorde, if the Mistress Geraldine be an angel, I am the Queen of Rumania, and so told the dame, but she given me a haughty look and snorts "he off, microbe" the which makes me spiteful wrath, but no so wrath as when I note the Mistress Geraldine thumbing her nose at me behind her mother's skirt, such a pore chance a mere male has among this house full of women. And so to the club, meeting Sir Joe Clarke, the advocate, Sir Sammie Campbell, the lyric tenor, the Laird Rabb, Milford Doo, Cocks, the common collector, Sir Bill Edw., the advertising genius, Sir Joe the myologist, and others of the consequent, so that I am grieved when I must leave them and again to the primary for my stant. So to writing this and that, with time out for a sough of hags, or two, and at a jayve house, home. So passed this day.

**Exchanges Close**  
TORONTO, June 3.—Both stock exchanges in Toronto will remain closed today, the King's birthday. Brokerage offices having wire connection with the New York stock exchange which will be operating as usual, will be open.

In a pale green hall, a black table and chair with silvery gray upholstery, and a gilt mirror made a lovely unit. Fresh flowers were on the table all the time.

The light stairway had some black panels. Just below, where the stairs rose out of the hall, stood a low double bench, with silvery green upholstery to match the chair.

This table caught the reflection through the living room door and gave you a reception over your shoulder as you looked at your own face in it. Beside the table was a sweet chair, with light green and red back.

Alongside the stairway sat a high double stool, upholstered with the same washable silvery green material as the chair. It held one person very comfortably, for a short wait, or two at a pinch.

## Musical Masterpiece of Love, "Viennese Nights" Returns Again to Rialto

### Ever-popular Film Is Re-Issued After Insistent Public Demand

and the picture which opens at the Rialto on Monday is the most colorful and musical representation of the gay night-life of the Vienna famed in song and story that has yet been recorded in film and sound.

**GAIETY BEGINS.**

For some reason gaiety seems to have been a little more natural in the Austrian capital than elsewhere, youth a little more care-free, music a bit more tender. Song and story, more easily in such an atmosphere and young love darts more in its kindly environs.

All of these intangible things Sigmund Romberg and Oscar Hammerstein have written into the haunting romance. Romberg spent his own youth in Vienna, and his love for it is direct.

"Viennese Nights" is famous alike for its glorious musical setting, the color photography that adds so greatly to the beauty of the production and the featured cast that includes Walter Pidgeon, Vivienne Segal, Alexander Gray, Jean Harlow, Bert Roach, June Marlowe, Alice Day, Lott Lottier and numerous others.

Their singing is superb, the scenes are magnificent, and the picture viewed from whatever angle, is without doubt the finest made in the past few years. The production ever turned out of Hollywood, its cost ran over \$1,000,000 and it was well worth the money.

Manager W. J. Long of the Rialto

## Plenty "Close-Up"

No "close-up" in her film career ever held the reality of this one. Janet Gaynor, flickerdom's perfection of the "sweet young thing". Here demands Janet, star of the Capitol's current film, "Adorable", is shown in all the sweetest cynos that made her famous.

## JANET GAYNOR ON CAPITOL'S SCREEN TODAY

### Henry Garat Co-starred in Outstanding Film, "Adorable"

Heretofore as one of the outstanding motion pictures of all time, "Adorable", the new Fox production, starring Janet Gaynor and Henry Garat, opens today at the Capitol theatre where it will be shown all next week until Friday.

It is the first American film to claim the talents of the famous international star, and the fact that she is co-starred with Miss Gaynor promises something of the unusual in screen entertainment. The story of the film is said to give America's most popular actress her last opportunities. It calls for extreme capabilities and a delicate touch in the dance. In her quest of the handsome soldier of the guard, Miss Gaynor reveals talents hitherto not credited to her. Edmonton audiences will probably remember Garat for his dual portrayal in "The Sign of the Cross". This, however, is his first appearance in a domestic production destined principally for American audiences.

The supporting cast is headed by C. Aubrey Smith, veteran character actor, and Herbert Mundin, one of the leading comical actors of the screen. Others in the large cast are Blanche Friderici, Stanley Holloway, Albert Conti, Ferdinand Schumann-Horn, Esther Muir, Hans von Wardowski, Peter Dinklage, Barbara Leonard, Sterling Holloway and Joe Cato.

Within the picture, directed by Paul Frank, is a story of a young man and screen adaptation by George Marion, Jr. and Zeno Strom.

An important feature of "Adorable" is the musical background and score. The music is by Werner Richard Heymann, with additional songs and lyrics by Richard A. Whiting and George Marion, Jr.

## Lee Tracy Stars Princess Monday

"Clear All Wires." Broadway's biggest laugh hit, on the screen at last. Lee Tracy heads a cast of film celebrities in Metro-Goldwyn-Mayer's talkie version of the play, which opens Monday at the Princess theatre.

But not Samuel Spewack, authors of the riotous drama of a bet-fitting newspaper correspondent who gets into a mass of comic complications in Europe, also wrote the screen adaptation in collaboration with Delmer Daves. Tracy plays the role of the irrepressible newspaperman who comes to Moscow, steals the show, gets loved by his wealthy employer, tries to bring a shooting for a newspaper "reap", gets himself shot and saved. The comedian's life then is arrested for the plot and falls into the tale of the Russian secret police until a dramatic denouement saves him.

Chromium is the hardest of all metals. In Europe, also

## Dreamland Has Double Program

Dreamland Theatre has booked in an exceptionally fine double feature program starting today and running until Tuesday night.

Tom Keene, latest cowboy sensation of the talking screen, appears in a daring Western, "Scarlet River", while Warner Barker is shown in the other half of the bill in the popular picture, "Beloved Bachelor".

## RIALTO

To the People of Edmonton:

It is with a great deal of pleasure that we present the re-issue of that haunting, throbbing, romantic singing picture "Viennese Nights".

Hundreds of requests have been received for the return of this picture, and we consider ourselves very fortunate in being the first theatre to present the re-issue.

I saw the first screening on my recent visit to the East and the inspired melodies still live with me. You will still want to hear it again and again!

## RACY FILM AT EMPRESS FOR MONDAY

Miriam Hopkins Has Lead Role in "Story of Temple Drake"

"The Story of Temple Drake," screen adaptation of a novel by William Faulkner, has been booked for the Empress Theatre, where it will open on Monday.

Miriam Hopkins plays the title role, with Irving Pichel and Jack LaRue, William Collier, Jr., and Joan Gargan.

Sir Guy Standing at the head of the supporting cast.

Ronde Miriam Hopkins is said to be at her best in this outstanding picture.

The "Story of Temple Drake" is the story of a Southern girl, a curious mixture of the sedate and the wanton. A drunken ride with a college boy ends up in a wreck outside a bootlegger's house, and when the boy is shipped off back to town, she is held by a sinister, menacing figure named Trigger, who kills the one man who tries to protect her, drags her off to a lawless rooming house in the city, and keeps her there.

Blame for the murder is placed on another man, and a young lawyer who is in love with Temple is assigned to defend him.

The lawyer traces Trigger, and finds Temple with him. The picture reaches a startling climax in the events that follow.

**Cardinal Bourne Reported Better**

LONDON, June 3.—Francis Cardinal Bourne, who became seriously ill Friday with pulmonary edema, was stated last night to be slightly improved after an examination by a physician.

(Edema is defined as a general swelling due to accumulation of serious fluid in the cellular tissue.)

Dr. Halliday Sutherland visited the cardinal for more than an hour this evening and found his patient in a somewhat better condition than he had been earlier in the day.

**A Happy Encore**

Here are Bert Roach, the comedian, and Louise Fazenda his running mate in fun, who come back to Edmonton across the Rialto theatre screen in that never-to-be-forgotten "Viennese Nights," which without exception, has played more performances in Edmonton than any other picture. And it still remains a favorite.

**Capitol Six Days Starting Today**

For the millions who love a clean, wholesome picture with a real kick—for those who appreciate a great love story with unusually good music—for those to whom Janet is the sweetheart of the screen—for the millions who will take Garat into their hearts as Canada's new leading man—we say, "See 'Adorable' at the Capitol today!"

## RIGHT AGE TO MARRY TOLD

A great many people ask me when is the right age to marry. Boys and girls are asked to know if it is a question that cannot be answered definitely because of the many degrees of opinion. It is a question that is asked, yet at the same time it is one of the most important factors in the success or failure of every marriage. Age and maturity are not the only things that count. The shoulders of boys and girls are not strong enough to bear the matrimonial yoke, and the old are too rigid to adapt themselves to new ways of thinking and other personalities.

Statistics show that there are more divorces among young married couples than among older ones. There are many reasons for this. The first is, of course, that the tastes of a boy and girl are different and the person or thing they are crazy about one year, they are tired of the next. They don't know what they are going to be themselves when they grow up. Still less do they know what sort of husband or wife they will want or need. And as the 1920's have generally as disastrous to the young as the 1890's were to the old, it is not surprising that in their maturity as it would be to live on the chocolate crans of which they could never get enough, or to wear the rai-rah clothes they once admired so much.

For another reason marriage, like everything else, has to be adequately financed in order to be a success. For boys are born with a golden room in their minds big enough to hold a fortune, but practically none at all to support a wife and, unfortunately, love young dreams have to be nourished on plenty of meat and potatoes, or else it is a pot-luck of matrimony.

When the cupboard is empty and the rent over due and there is no money for any sort of pleasure or amusement or even for the living, romance peters out and the boy and girl husband and wife begin to fight and only one of them wind up by parting and going back to mother.

Nature does its little bit, too, toward wrecking the very young marriage. For nothing is more fallacious than the idea that if a girl and boy marry they will grow into one. Almost always they grow apart instead of together, because one outgrows the other. One develops and the other stays put, and then you have one of the greatest tragedies of matrimony. A good woman or man with whom he or she is meant to live, but who is not permitted to the corpse of a dead love and doomed to drag it about as long as he or she lives.

### The Housewife's Idea Box

Do not throw away sheets that cannot be darned and used on the beds. Cut out the good piece. If large enough, use them for covering your ironing board. Smaller pieces make good pads for windows and other cleaning purposes. Use them to line the inside of your car. Use them to line the inside of your car. Use them to line the inside of your car.

Use For Old Sheets. Do not throw away sheets that cannot be darned and used on the beds. Cut out the good piece. If large enough, use them for covering your ironing board. Smaller pieces make good pads for windows and other cleaning purposes. Use them to line the inside of your car. Use them to line the inside of your car.

An easy way to treat worn out carpets on the carpet is to paint the places with dye the color of the carpet. Put on with paint brush. If one coat is not sufficient, put on a second.

And they generally succeed. DOROTHY DIX.

# Alberta Wheat Above Ground

## Decreased Acreage Is Reported From Scattered Areas

### Substantial Gains Recorded in Seeding of Coarse Grains

Practically all Alberta wheat is seeded and a large proportion is showing above ground, according to the fifth fortnightly crop report of the provincial agriculture department, issued on Saturday by authority of Hon. George Healey, minister in charge.

Conditions this year are more favorable for coarse grains and indications from nearly every district are that there will be a definite increase in yield.

Much of the coarse grain seeding is completed. The usual variations of the 1933 planting season have been offset to a very marked degree during the last fortnight by the rapid growth gained by the seeded crop, a factor which has brought about a situation almost up to normal, with the exception that the grain has increased in acreage as has been changed to a wheat acreage.

### FAIRLY LARGE DECREASE

"This decrease is fairly large in the areas suffering most from backward conditions and while there is no definite estimate as yet as to the percentage over the entire province, crop areas, it will be fairly substantial."

In spite of the fact that considerable wheat has been put in, on stubble land, the entire situation is somewhat very satisfactory.

General moisture precipitation in May was good and unusually heavy in some sections. Grains and all the crop areas have been well watered and the situation is healthy.

Early wheat seeding in some districts has been somewhat retarded, but at one or two points in the southeast rain would be welcome.

Grasshoppers are hatching rapidly under weather conditions in some areas and the extermination campaign is well under way.

Director of the field crop section, M. J. McNeill, is issuing the statement.

"The 1932 examination as a basis, Mr. McNeill's statement is as follows:

### COSTS OF EXAMINATIONS

Examinations were written in 1932 on 21,262 candidates. In 1933, 262 candidates wrote 90,320 answer papers. Examination papers were prepared in 90 individual units (sheets) and two papers (June and December) in 20 units.

"Each of these examination papers was submitted to the committee by a revision committee consisting of three members.

"A staff of 18 persons was employed in one month in preparing the examination papers and supplies according to the units to be written in each section of the examination. Not less than two million sheets of examination paper were handled in the shipping of supplies and to mention here, in the examination, instructions to candidates and preparing examination papers.

"The services of 260 persons were engaged for two weeks in the marking of these papers.

A clerical staff of 60 was engaged for two weeks in the marking of these papers. The balance of the year, including records of results, and the preparation of reports for candidates and school directors, was completed by the results in the permanent records of the department.

### RECORDS 15 DAYS AVAILABLE

"The entire time of five years is required throughout the year. The records of the examination, including records of results, and the preparation of reports for candidates and school directors, was completed by the results in the permanent records of the department.

### AER CLUB WILL HOLD BOMB SHOW

Captain Maurice Barthelemy, who has the distinction of being a member of the famous 100th Bombardment group during the war, will himself be the target for bombs at the Edmonton aer club on Sunday afternoon. And if any of his flying pupils have a grudge against the deaconess, he will be a fine chance to drop a bomb on her head.

The Edmonton and Northern Alberta Aer club is to hold a flying competition at the aer club on Sunday afternoon. The aer club is a skilled pilot on land as well as the air, it is likely that the members will have a tough time.

## INFORMATION ON COSTS OF EXAMS GIVEN

### Individual Pupil Pays on Average Slightly Less Than \$4 Yearly

Pointing out that recent news items following a protest from Medicine Hat school board relative to the cost of conducting department examinations, which parents are called on to pay indicate a lack of information on the part of the public with reference to these costs, G. Fred McNeill, director of Education, has issued a memorandum to all school boards in the province.

"As a matter of fact, the individual pupil pays on the average only about \$4 a year for the entire service of testing his knowledge, furnishing him with a statement which will be accepted anywhere in the world, as well as records of his progress at all times, of his achievement at the end of his school career."

McNeill is issuing the statement.

### FOUR PAYMENTS

Land and property taxes are paid in four equal quarterly instalments due on June 3, August 3, October 3 and December 3.

Her discounts are allowed on the payments, the only discount for the unpaid amount will be the first instalment as approximately \$500.00 was received under the pre-payment scheme last January.

### THE INQUIRING REPORTER

Do you think that reduced production of wheat by curtailment of acreage through international agreement of the four great exporting countries, Canada, United States, Argentina and Australia, will result in a shortage of wheat and a rise in the price of wheat?

It is possible that such a "crisis" today would result in importing countries in that way defeat itself.

Alway, how does the whole thing strike you?

These were questions put by The Bulletin's Inquiring Reporter Saturday. Below are replies.

J. L. MALDEN, grain merchant: "I think that a reduction of acreage by international agreement will benefit the farmer and that it will be a benefit to a better world. But you are asking my opinion as to the future, well, let me say, I think the market is going up and up and it is going down and down. I think so. Whether side of the market you wish to go, it will be wrong, so say at once."

WM. HANNAH, grain buyer: "A reduced acreage does not necessarily mean a reduced crop. The reduced crop can be achieved by curtailment of acreage. I think the farmer will get a better price for his wheat. The price is not pushed up high, it is to be honest, it is not pushed up high. I do not believe it would be economically sound for European importing countries to go heavily into production."

C. SCHULTZ, trader: "In the first place I do not think that a reduced crop can or will be reached. However, such a plan might mean the price up for a short time but it would not hold. If we reduce acreage here, it would not be a big factor in world trade, but it would be a factor in the European market. I believe that they grow about as much wheat now as they can so that point need not be serious, I considered."

AMBULANCE HEAD CITY VISITOR

Making an inspection of the various members of the St. John's ambulance association throughout the city, C. B. Clark, C.B.E., M.C., Ottawa, is in the city on a visit to the city of Edmonton, Alberta, following an inspection visit to the coast.

### Regular meeting of the Edmonton Public School Board will be held Tuesday, June 6, at 8:00 p.m.

Clifford Bernard Carlson, chairman, Richard Henry Clark, clerk, Thomas Bruce Stettin, City assessor, and Frederick C. Gifford, City assessor, are among those expected to be present at the current session of the Alberta Board.

Two local companies have been incorporated in this province in the last two weeks with a total capitalization of \$100,000. "Telegraph Limited" has been incorporated for \$100,000, while "La-Van-Ca. Ltd." has been incorporated for \$100,000.

As they have been quite a number of children who, for different reasons have been unable to come to the third prevention of diphtheria treatment, it has been decided to have all of these come on Tuesday morning, June 6, from 10 o'clock to 12 noon, at the City Hall.

All parents are asked to please note this and bring any child who has not been vaccinated to this third treatment at this time.

### DAVID STANFIELD WINS SCHOLARSHIP

David Stanfield, 31, son of 11 and Mrs. Edgar Stanfield, of the University of Alberta and a student in the law school of the University of Alberta, has won the Stanfield scholarship for the year 1933-34.

**THE TWYNITES**  
Story by **HAL COCHRAN**  
Drawn by **GEORGE SCARRO**

The chimney top was large and flat, and on the edge we Duncy sat. Said he, 'I guess the eagle nest is up there. That's why we stopped.'

'That's what I call good, common sense. No doubt 't would be at my expense, if Mr. Eagle grew tired out. No doubt I would be dropped.'

He then gazed at 'rother hen-counters, and said, 'I guess the eagle nest is up there. That's why we stopped.'

He found the chimney inside rough. In fact, 'twas that way just about everywhere. He found the chimney inside rough. In fact, 'twas that way just about everywhere. He found the chimney inside rough. In fact, 'twas that way just about everywhere.

**Said he, "This is a lonely place. I wonder who lives here!"**  
**"If I could get down to the ground, it might be fun to look around, and yet if I stay where I am, there's not a thing to fear!"**

He rested for an hour and then exclaimed, "Well, let's be off again. Grab hold of me, old bird; it's a haphazard world, and we'll need it." He took his old bird in his arms and left poor Dusty sitting there. The poor dust sat dumfounded till the bird was out of sight.

"And then he said, 'Well, what is it? No doubt, one of the eagles' eggs. I'll be damned if I know where I'm supposed to be.'"

"The eagle said his old eagle knew what he was doing, and he didn't wonder if they're in this house!"

He then stood up and promptly

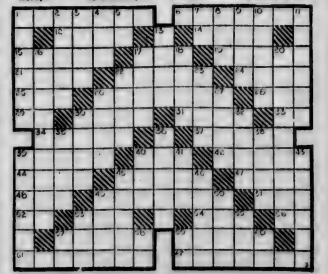

in the next story."

Of the 61 separate nations of the world, 21 are independent, mostly as a matter of courtesy; only 17 of military importance, and seven are in the category of world power.

Most humans are born at night, but most twins are born around noon, according to a German authority.

The export of lead from Canada in April totalled 237,459 cwt., valued at \$1,040,000. In April last year, it was \$1,044,000.
